

"STATE OF WAR" RESOLUTION SIGNED BY PRESIDENT; SEIZE GERMAN SHIPS ENTERED AMERICAN PORTS

HOUSE WAR VOTE STANDS 373 TO 50

WAR MOVE CALLED BY LOWER HOUSE AT THREE THIS MORNING, SIGNED BY WILSON SHORTLY AFTER NOON.

MISS RANKIN VOTES NO

Lady From Montana Much Agitated As She Casts Vote Against War—Kitchen Also Opposed Resolution.

Washington, April 6.—President Wilson today signed the resolution of Congress declaring a state of war between the United States and Germany.

All the naval militia and naval reserves were called to the colors in the President's signing of the war resolution.

The war resolution was signed by the President at 1:11 p.m.

The war resolution was signed at 12:14 o'clock by Vice-President Marshall. The next final step was President Wilson's signature.

Signers of Declaration.

The President also signed a proclamation formally declaring a state of war between the United States and Germany.

Immediately after the signing of the war resolution, the President issued a proclamation calling for the enlistment of all citizens to give support to all measures of the government.

The navy department immediately wirelessd all its stations, navy yard and ships as follows:

"The president has signed an act of Congress which declares a state of war exists between the United States and Germany."

Reproduction of "Patriots" Wilson Portrait, thousands of copies of which have been distributed throughout the country.

Mr. Kitchen's speech of many voices against the war resolution

Mr. Kitchen's speech of many voices against the war resolution, which he delivered in the House of Representatives, was a powerful and eloquent statement of his opposition to the war. He declared that the resolution was a "state of war" and that it was a "state of war" between the United States and Germany.

No Limit on Debate

No time limit was put on the debate, however, and it was a field day of talking. Every member who wanted to talk, had an opportunity to do so. It was estimated that more than 100 speeches were delivered. The cost of white paper required for copies of today's Congressional Record promised to run high.

Little room for compromise

Little room for compromise was left in the debate. The amendments were proposed and debated, but the resolution was passed by a large majority. The amendments were rejected.

Miss Rankin's participation in the proceedings was scarcely less dramatic

Miss Rankin's participation in the proceedings was scarcely less dramatic. She was a powerful and eloquent speaker, and her speech was a powerful statement of her opposition to the war. She declared that the resolution was a "state of war" and that it was a "state of war" between the United States and Germany.

Kitchen Worries Administration

Kitchen's worries about the administration were a major theme of his speech. He declared that the administration was not prepared to handle the war, and that it was a "state of war" between the United States and Germany.

Tarnowski Ordered to Break Relations With United States

London, April 6.—Vienna newspapers say that Count Tarnowski, recently sent to the United States as Austro-Hungarian ambassador, has been instructed in the event of ratification of the war resolution by Congress at President Wilson's recommendation to break relations with the United States.

GOVERNMENT'S PLAN TO RAISE AN ARMY OF A MILLION MEN

(BY ASSOCIATED PRESS)

Washington, April 6.—How the government plans to raise a war army of a million men within a year and of two million within two years was disclosed today by the passage of the war resolution by the House.

A bill prepared by the general staff and approved by the president for submission to Congress provides for the immediate filling up of the regular army and national guard to war strength of more than 800,000 men, draft unless enough volunteers enlist quickly, and for bringing into the service by late summer of the first 500,000 of the new force of young men between the ages of nineteen and twenty-five years to be called to the colors by selective conscription.

In drafting this program, the staff recognized the fact that the United States must start at the beginning of the war with an army of 100,000 men and train and equip 1,000,000 men and non-commissioned officers to undertake the training of the thousands of youths who will enter the service with no notion of military duty or life.

Expansion of the present regular army to its full war strength of 287,000 enlisted men and 17,000 officers, and the creation of new regiments of all arms, will be accomplished by dividing existing regiments and filling each half to war strength with volunteers or conscripts. The national guard regiments will be called into the federal service under the existing laws which have approximately 327,000 men and 10,300 officers at the present time.

No new regiments of the strength of the national defense act would be invoked to wipe out any distinction between federal and state forces. The volunteers would be received and drafted into the service when necessary.

These two steps would provide a total force of 500,000 men and 22,000 officers to be supplemented by a recruit organization for each unit, making an additional 200,000 men to be trained, but not yet in the active army as they are now.

For five months the expanded forces will be subjected to training of a kind and in a manner unknown in this country. Simultaneously the registration of all men between the ages of nineteen and twenty-five, and the carrying out of the present act, will be completed.

In August or early in September, the first 500,000 of this new army, composed exclusively of young men, will be called into the service under the principle of universal military service, with those supporting dependents or needed by the nation assembled for exemption.

From the regulars and national guard regiments would be drawn 100,000 specially selected officers and non-commissioned officers, and the remainder of the army would be made up of the new army.

A year from now, a second increment of 500,000 youth would be called out, and the 1,000,000 officers would be drawn from the regulars, the national guard forces or from the first section of the new army to officer the second section.

By that time the machinery that had been built up would provide enough trained officers to train a million or more men at a time, if that were necessary.

The war department bill, however, proposes to authorize now only the first two classes of the new army, making a total of more than 2,000,000 trained troops will be available possibly within a year and a half, or in two years at most.

The sum of nearly \$3,000,000,000 asked of Congress to carry out this program deals only with the first year of preparation, and it stands the need of an equal sum for reserve supplies of ammunition, cannon and other war material if the army is to be employed in action.

Included in the present estimates are the cost of cantonments to house the troops. Presumably the previous plans of the general staff for sixteen military districts will be carried out. This would provide for sixteen complete and fully equipped army divisions, and while it is not proposed to create any additional tactical units, the plan does include steps to be taken to fill in the gaps in the present guard structure with cavalry, artillery, engineers or other special troops, completing the tactical organization of those forces on sound military lines.

Staff officers regard the plan proposed as the most effective that could be worked out to meet the present emergency. They regard the expansion of the regular army and the bringing of both that force and the national guard into the service as the most effective that could be worked out to meet the present emergency.

MONROE CITIZENS STAGE A MONSTER LOYALTY MEETING

One-Half the Audience at Armory Gathering Thursday Evening Were of German Descent.

(SPECIAL TO THE GAZETTE)

Monroe, Wis., April 6.—Monroe and vicinity in no unimpassioned terms of the people of this section of the state and pledged their support to the president and Congress in whatever action might be taken in the present crisis. More than 5,000 people participated in the parade around the public square, all of the local patriotic and civil societies marching in bodies.

Following the parade a patriotic gathering was held at the armory, the principal speaker of the evening being Malcolm Jeffers, of Janesville. More than one-half of the people present declared themselves of German descent in response to a question by Rev. A. A. Krug, addressing the gathering. Both English and German, praising the German people at all times for their loyalty to America, and declaring they would forget the ties of the fatherland in the event of a war between the United States and Germany; and all who declared themselves of German descent pledged their loyalty when invited to do so by Rev. Krug.

The scene was a most dramatic one, and it was a most fitting answer to the charges of some of the local war fanatics, who charged disloyalty because Monroe people at the polls dared to exemplify the inherent right of Americans to express their opinion on the present crisis by a referendum vote, strongly opposing a declaration of war by Congress.

Resolutions were unanimously adopted pledging the loyalty of this community to Congress and the president in whatever action might be taken, giving assurance that Monroe and Green county stood ready, in keeping with its past record, to give the best of its manpower for service under the stars and stripes. Short addresses were made during the meeting by representative members of various patriotic societies. Every person present was given a flag, also a smaller flag for the lapels of their coats.

HOGS AT \$16 REACH HIGHEST KNOWN COST

Chicago, April 6.—War conditions and the fact that arrivals here were not so numerous as expected, made hog prices rise today to a point never touched before—\$16.00. Supplies of cattle and sheep proved inadequate.

34 MEN TRAPPED BY EXPLOSION IN MINE

(BY ASSOCIATED PRESS)

Fernie, B. C., April 6.—Thirty-four men are believed to be trapped in mine No. 3 at Coal Creek near here, as the result of explosions in mines No. 2 and 3 late last night, according to reports reaching here. All but two men were rescued after three days. Two bodies, badly mutilated, were recovered.

SENTENCE GERMANS FOR LINER PLOTS

(BY ASSOCIATED PRESS)

New York, April 6.—The six German conspirators to destroy steamships carrying food and munitions from this port for the entente allies with incendiary bombs manufactured in Hoboken, were sentenced today to prison terms varying from two years to six months in addition to paying fines of from \$500 to \$5,000.

TAKE ACTION AS MEASURE OF SAFETY

NINETY MERCHANT VESSELS TAKEN OVER UPON ORDERS OF THE SECRETARY OF THE TREASURY.

WILL REPAIR DAMAGE

Ships Will Be Placed in Condition for Use in Case Government Decides to Put Them into Service.

New York, April 6.—Seizure of German merchant vessels that took place in Atlantic ports at the beginning of the war has been a measure of safety, and is to be expanded, at the discretion of the president, it is made available at once to remain available until December 31, 1917.

Measure of Safety

Port officers acted on orders issued by the secretary of the treasury. It is understood the vessels are held for the present as a measure of safety. There has been no announcement as to whether the government will take over the ships for its use and pay for them after the war.

German vessels now in American ports number ninety-one, with a gross tonnage of about 600,000. They include twenty-three ships in refuge at the Philippine Islands, 11 at Honolulu, and one at Pago Pago, a total of 35. There are twenty-seven German ships at New York, five at Boston, one at Newport, R. I., three at Baltimore, Md., two at Philadelphia, Pa., two at San Francisco, two at New Orleans, two at Southport, N. C., two at Astoria, Ore., one each at Portland, Ore., Winslow, Wash., Seattle, Wash., and San Juan, P. R.

Includes Big Ships

The ships at New York and Hoboken include some of the flowers of the German merchant marine. The largest, the *Vaterland*, one of the largest vessels in the world, has been the most valuable in the world. It is the George Washington, 25,570 tons.

Four Austrian steamships also are held here. Since the protestant congress, these ships have been under a heavy guard, stationed by the collector of the port. At various times there have been reports that the ships would be wrecked by their German crews, but of this there has been no official confirmation.

Two Courses Open

Washington, April 6.—Seizure of German merchant ships in American ports, according to an official statement, are a measure of safety for the United States and a measure of safety for the government. The ships may be pressed into service and paid for at the close of the war or they may be sold without any compensation whatever to the German government. The first move probably will be to repair the damage to ships caused by the seizure of the German government when diplomatic relations were severed.

Reports to treasury department confirm statements that the vessels seized, which have been disabled. There are some indications that the vessels will be requisitioned by the government for trans-Atlantic trade as naval auxiliaries, at least a portion of them. Officials asserted today that so far as the owners' rights in the vessels are concerned, this country will scrupulously observe them.

The following statement was issued by Secretary McAdoo at the treasury department under whose jurisdiction the operation of custom agents fall:

"For the purpose of protecting the vessels from further injury and until a decision can be reached as to the proper disposition of the vessels, they have been placed on board all German merchant vessels anchored in the ports of the United States."

The officers and crews have been taken into custody by the department of labor pending a determination of their status.

"It was officially announced that in the case of the *Kronprinzessin*, the German merchant ship in Charleston, S. C., upon the severance of diplomatic relations, the damage was not great. Under jurisdiction of the federal court at Boston, the damage done the vessel's machinery was so extensive as to make her unseaworthy for months."

Seattle, April 6.—The German liner, *Saxonia*, and the German sailing ship, *Steinbeck*, interned at Eagle Harbor near Seattle, were seized by the department of labor early today. The crews were brought to the immigration station in Seattle in a launch and confined in comfortable quarters.

Three Sailing Vessels

Portland, Ore., April 6.—Customs officers, assisted by soldiers, early today seized three German sailing vessels, the *Kurt*, *Dalbek* and *Arctur*, which have been in refuge at Vinnien, which have been in refuge since the outbreak of the war. The crews were removed and guards left in charge.

Emergency War Fund of \$100,000,000 Is Asked for President

(BY ASSOCIATED PRESS)

Washington, April 6.—Appropriation for \$100,000,000 for an emergency war fund to be used at the president's discretion, similar to the \$50,000,000 fund given President McKinley for prosecuting the Spanish war, was attached today by the senate appropriation committee to the general deficiency bill.

The appropriations committee also increased the department of justice fund for prosecution of crime and also that of secret service.

The \$100,000,000 given the president is "for the national security and defense, and for each and every purpose, and is to be expended, at the discretion of the president." It is made available at once to remain available until December 31, 1917.

The emergency war fund of \$100,000,000, to be used by President Wilson, was quickly voted by the senate, which thereupon adjourned until noon tomorrow. It must also be approved by the house.

Remove Crews From Ships

Baltimore, April 6.—Sixty members of the crews of German steamers were removed today to a place of confinement. The ships are the *Rhein*, *Neckar* and *Elbe*.

Take Over Freighter

Savannah, Ga., April 6.—Immediately upon receiving news of the house passing the state of war resolution, local customs officials, acting under previous instructions, took charge of the *Hohen*, a German freighter, and immediately removed the crew to a place of confinement.

Two at New Orleans

New Orleans, April 6.—The German steamers *Breslau* and *Andromeda* were taken in charge by federal authorities today. The crews were taken to the United States immigration station.

At Wilmington, N. C.

Wilmington, N. C., April 6.—Two German merchant ships, *Kronprinz* and *Caria*, have been seized by the government. The crews were taken to the United States Marine Hospital grounds.

Two at Philadelphia

Philadelphia, April 6.—The interned German steamers, *Prinz Oskar* and *Rhaetia*, of the Hamburg-American line, were seized today by federal officers.

One at Jacksonville

Jacksonville, April 6.—Customs authorities early today took charge of the *Leonhardt*, a German freighter, and immediately removed the crew to a place of confinement.

Police Protection Was Afforded Today

Police protection was afforded today and yesterday to the *Jones Dyeing and Bleaching plant*, in Monterey, following threats of violence from a group of between thirty and forty workmen who demanded higher wages. The management announced that the plant's output was now fast approaching the normal level, and that but minor inconveniences had been the result of the strike.

STRIKERS THREATEN AND POLICE PROTECT JONES DYEING WORKS

The trouble fomenters will not be permitted to have their former positions. Mr. Jones said. Enough idleness will be tomorrow it was expected that conditions will be running as smoothly as though no trouble had occurred.

The laborers were receiving \$2.25 per day. They demanded \$2.50. It is claimed that the company and its promised peace and rest and offensive in their demands, and an almost general walkout occurred at noon Wednesday.

But fifteen men refused to follow the strikers. It is claimed that they threatened with violence and also that the plant, which has had a mushroom growth since the beginning of the world's war, was also liable to injury.

To meet any emergency the officials of the works solicited police protection. It was immediately granted. The men who remained loyal were informed personally that they would receive the wage boost to \$2.50 per day.

CUBA PLANS FOR A BREAK WITH KAISER

PRESIDENT MENOZAL THIS AFTERNOON SENDS MESSAGE TO CONGRESS RECOMMENDING WAR MOVE.

RESULT OF U-BOAT WAR

Declares That Cuban Government Should Align Itself With All Civilized Nations in Protest for Rights.

Havana, Cuba, April 6.—President Menocal this afternoon sent a message to the Cuban Congress asking that body to declare that a state of war exists between Cuba and the imperial government.

The president's message starts by reviewing the message of Germany which declared for a prosecution of ruthless submarine warfare. It refers to the reply of the Cuban state department to that declaration in which it was set forth that a definite rupture with Cuba might result as emphasizing in protest for Cuban rights in conformity with the action of other civilized nations.

POSTPONE LIQUOR BILLS--TO CONSIDER FIRST WAR MEASURE

(BY ASSOCIATED PRESS)

Madison, April 6.—Bills prohibiting, treating with intoxicating liquors and prohibiting the sale of liquor on railroad trains, were indefinitely postponed by the assembly today.

The governor's veto of the Graaf bill giving county boards power to make appropriation to aid ferry construction, was sustained by unanimous vote.

The bill to increase the percentage which the state would receive from boxing contests, was killed.

The *Rosa* bill permitting the manager of city government in Wisconsin was advanced.

The *Ken* bill for an eight hour day in state printing contracts was laid over.

Bills to prohibit loitering and picketing; for municipal ownership of street railways, and for increasing the powers of cities in granting franchises were killed.

The assembly was to convene in committee of the whole this afternoon to consider the first war measure precipitated as a result of the declaration made in Congress early today, the proposed state council of defense bill.

6 KILLED; 60 HURT IN CAFE EXPLOSION

Chicago, April 6.—Six deaths due to an explosion in a restaurant here yesterday occurred today. Sixty persons injured in the explosion, and in which followed it, are still in the county hospital.

RESIGNATION OF PREMIER REFUSED

Amsterdam, April 6.—The *Weider Zeitung* publishes an autographed letter from Emperor Charles to Minister of Justice Von Schenk, declining to accept his resignation, and assuring the minister of the Emperor's fullest confidence. Von Schenk, with the minister of war and finance, tendered his resignation after charges that they had neglected to cover up gross faults in connection with army supplies.

OWEN HAS A MARGIN WITH LATE RETURNS

(BY ASSOCIATED PRESS)

Madison, Wis., April 6.—The State Journal this afternoon claims Walter C. Owen's election to the supreme bench, to succeed Marshall, by at least 6,000 votes, and further returns may increase Owen's lead to 10,000.

MILK PRODUCERS TO CONTRIBUTE \$3,500 FOR NEW MILK FIRM

Citizens of Janesville Have Already
Subscribed \$2,300.—To Give Ten
Cents Per 100 Pounds of
Milk.

By a donation of ten cents for every
hundred pounds of milk delivered
during the months of April and May,
the Janesville Milk Producers' as-
sociation will raise the \$3,500 neces-
sary to secure the new milk firm
company, and the resulting estab-
lishment of a permanent milk firm
in this city, to handle as much milk as
the farmers will bring to it.

This plan was adopted yesterday at
a meeting of the association after a
stormy session, in which many meth-
ods of raising money were proposed
and discussed, the ten cents a hundred
pounds plan being adopted by a
large majority vote as the one pre-
sented the fewest objections.

All the members of the farmers and
business men last Monday evening, at
which time, after some litigation, the
Bower City Creamery company agreed
to sell for \$5.50 a pound of milk, the
remaining \$7,000 to be equally di-
vided among the country and the city.
To date the canvassing committee of
the producers has solicited about
\$2,300 in Janesville, and the prospects
for the rest were exceptionally bright,
as there are still many of the large
corporations who are looking for a
company to supply them with milk.

Members of the committee guaranteed to the farmers
yesterday that they would have the
entire \$3,500 on hand by the end
of this week.

The unanimous expression of the en-
tire committee, and in fact of the
whole association, was one of great
gratitude to the citizens and especial-
ly the business men of Janesville.
In practically every case they declare
they were received most cordially,
better treatment and greater suc-
cess than they could have expected. It is
of great satisfaction to not only the
producers, but to those citizens of Janes-
ville who have been looking for a
company to supply them with milk, and
a co-operation of effort between the city
and the country, and the consequent
breaking down of the barriers between
these parts of the community.

Among some of the producers there
has been a misunderstanding of the
various phases of the transactions in-
volved in bringing the new plan to
fruition, and it was not until these
had been explained that they were
willing to contribute to the fund. It
is maintained by all who know the
city business that a bottling plant is
the best milk market a farmer can
have. It is stable, sure, and perma-
nent. A condenser is all right now,
but there will soon come a time
when the price of condensed milk will
take a big drop. A great many ways
need money, and more all the time.
There's where the bottling plant has
the advantage.

the firm to whom they deliver milk to
deduct from their own milk checks an
amount at the rate of ten cents per
hundred pounds of milk. This is to be
sent to Mr. Huggins, treasurer of the
association, this donation to continue
through the months of April and May.
It is felt that this is the most equi-
table means of securing the money, as
the wealthy farmers will thus pay propo-
riately more than the poorer man.

The plan was adopted by a majority
vote of the producers, and the pledge
was signed by all in attendance at
yesterday's meeting. It will be cir-
culated among all other members of the
association as soon as possible.

ASSEMBLY FAVORS FOOD CONFISCATION IN CASE OF "PRICES"

(BY ASSOCIATED PRESS)
Milwaukee, Wis., April 5.—The assembly committee today favors the food confiscation bill which originated with the United States senate. The bill provides for the seizure of foodstuffs when prices reach an unreasonable level. The bill would give the government the right to take over a business, if it is found that the prices of the goods are being raised in violation of the law. The bill has already been held on the senate floor.

The bill provides that when the government is unable to obtain foodstuffs for the army or navy, it may seize the foodstuffs of any person who is hoarding or manipulating the market. The bill also provides that the government may seize the foodstuffs of any person who is raising prices in violation of the law. The bill has already been held on the senate floor.

As soon as the jury is empaneled, the commission shall have the right to immediately serve notice on the owners of custodians of supplies of food or fuel to appear before the jury and show cause why the supply should not be taken for public use. It is then up to the jury to decide whether a seizure is justified. In case they decide it is, the commission shall decide upon the amount of the seized supplies, which amount shall be furnished by the city. As soon as the money is made available by the city, the commission shall seize the supplies. Any persons aggrieved by such assessment shall have the right to appeal the amount court within twenty days.

THE GERMAN PEOPLE.

Extracts from the Berlin press take exception to the paragraph in President Wilson's speech in which he says that the German government and not the German people, is responsible for the conditions which now exist. "The claim that the people are not in supporting the Kaiser," the Berlin press could not be expected to say less, but it does not change conditions.

The German people are subjugated because they have always lived in an atmosphere of repression. The discipline to which they have long been subjected is an iron clad discipline, and obedience without question has always been the watchword. Their loyalty is the loyalty of obedience. They are waiting for the life of the dynasty which has outlived its usefulness and for an autocracy which would be a curse to any people.

If the Berlin press has sized up the situation correctly, which is very much doubted, then the German people need saving from themselves. They are entitled to the freedom which had intended them to enjoy, and when this wicked war between Germany and Russia freed from the bondage of serfdom.

FACE TO FACE.

War has been formally declared against the imperial government of Germany by the United States. The senate of the United States and the house of representatives have voted by conclusive majorities that war shall be declared, and Wilson's signature to make it a fact. We are face to face with a situation that this nation is not prepared to meet as a nation. We have declared war. We have ordered a vast army enlisted, a greater navy recruited, and we have not actual preparation to arm and equip the soldiers and sailors when they do enlist or are conscripted.

We are at war with one of the greatest military nations of the world yet we are not even as well prepared to meet emergencies as was England when it suddenly became a party to the present struggle. There is too much talk and too little actual preparation. The pot worth while, even if you win. There are thousands of young men who will offer their services for both army and navy, but how are they to be drilled and equipped? Where are the munitions of war?

Before plunging this nation into a struggle, the end of which can not be anticipated, would it not have been better to have filled the army and naval storehouses with equipment, arms and ammunition? Did not the lesson taught at the time of the Spanish war sink home? Was not the lesson of the Mexican border last year a sufficient demonstration of the inefficiency of the government to meet an emergency?

It is all right to declare war, but preparation for the conflict should have been started years ago. To send our young men out to fight empty-handed or with broomsticks, as did the English recruits in the first days of the present war, is absurd. We are face to face with a serious problem and we must meet it with precision and decision. First, we must remember we are one nation and one people under one flag and our previous opinions on the war must be forgotten in the love of country and national patriotism in aiding in this seventh hour preparation for a conflict that has been forced upon us by an autocratic government and is not of our own making or desire.

PATRIOTISM.

Among the great virtues of life the world gives the highest estimation to patriotism. A man may have many faults, but if he has been loyal and courageous in his service to his country, many defects are overlooked. This is because patriotism is a generous ideal and it blesses and honors everyone. Wherever men have risked their lives in the service of the country, they have helped build civic institutions and places where the names of our heroes are inscribed on monuments and in public records, where less generous lives leave no mark behind.

There are some of us who in a time of peril think only of money-making. We are recruited to war if we think we see a dollar in it. If it is going to hurt our business or our job, we equal. Patriotism is not shown merely by the splendid sacrifices of those who enter for military service. It is also displayed by all who support the honor of our country, disregarding the effect it may have on our private interests.

If that law calling for a draft or volunteer service comes shortly it will mean that those who sign up will do so under the same provisions as the present national guard. They will enlist for the war, or for three years and with the three year reserve clause added. Better join the state guard organizations than be drafted away from home and friends.

Baseball Manager McGraw gets a salary of \$50,000 now. He may be able to climb as high as the president of the United States, but he must feel discouraged when he looks at the movie stars.

The question about buying an automobile this season is not so much whether you can afford it, as whether the people that lend the money think they can collect.

If it was thought that some of the food speculators could be bankrupted or an over supply of food crops and low prices, there would be some en-

thusiasm about the garden movement this year!

As according to the German bulletins when they retreat they win a big victory, the French are anxious for them to win another victory by falling back to the frontier.

After deploing the waste of our national resources that leads to a food shortage, many people will go out and plant large flower gardens with no vegetables.

Great enthusiasm is manifested by the politicians for patriotism, after carefully assuring themselves that the un-American vote is in the minority in their districts.

The rising generation refutes the charge that it is not concerned about the national holidays, by the interest it takes in the appointment of Circus day.

Having had plenty of opportunity to test political sentiment in their home districts, the congressmen should know pretty well what their own sacred and unalterable convictions are.

The pacifists feel that this government should hang off until the Kaiser has demonstrated his affection for us by sinking a few more American ships.

Having declined to enlist in the army because of the risk and danger involved, many men proceed to shorten their careers by too much sporting life.

Hang out your flags and banners. Let every home and business place in Rock county display the national emblem to show the world we are a loyal people.

Many people won't be able to start a garden this summer as it will take them all their time to read the many articles and books on how to do it.

Most of the college boys are ready for military service, while the many men who make fun of college fellows are saving their own skins at home.

Keen interest is felt by New Yorkers to see Billy Sunday, as they are anxiously waiting to show him how wicked they are.

It is believed that if the summer girls approach the Kaiser very humbly he may permit them to bathe in the ocean.

The politicians are already figuring how they can handle the war issues so as to get re-elected.

There was no April Fool joke about the advances in prices of things announced April 1st.

ON THE SPUR of the MOMENT

ROY E. MOULTON

THE LAST PEDESTRIAN

Amid the shrieking of the horns, Amid the traffic's surging tide, Mid truck and dray he picks his way. To reach the other side, And one clutches him all amazed, He darts along all through the throng As graceful as can be!

Yet though he knows he can elude The rush of all the traffic mob, He seems in woe, in fear, and oh, He stops a while to sob, He stops to sob for well he knows "I'll come to pass, someday alas! They're going to get him yet!"

This lone survivor of a kind Long since bumped from the earth's round rim, He has no peace, they never cease, They're ever after him! Though faint and nimble as the fawn, He darts and ducks as best he can, Someday we'll bet they're sure to get The last pedestrian!

The Garden Nut

Observe his hurried, eager way, Perhaps he doesn't sleep enough! He hurries home at close of day With garden seeds and slug.

He spades and putters round the place, Neglects his wife and little tots, Will hardly eat, but only pace The yard off into plots.

He spends enough for tools and implements to live for months in ease, And all he grows is but a skimpily carrot, or some peas.

(Thus went the jest of yesterday, But with food prices on the soar Somehow it really isn't near So funny anymore.)

By All Means

If ever the day comes when jokes are rewarded or pensions for long and faithful service the first or the last should be the one about the Irishman who carried the same load of bricks up and down in his bed all day, and snickered to think how he was fooling the boss.

Never "You're canned!" exclaimed old Rufus Rill. To wayward Berram Bull. "This is a job you cannot fill! When you are always full!"

Do not read the newspapers when another person is present, for if the person is your wife, and the place your breakfast table. Questions Answered by Alicia Hoyt. (Miss Hoyt will answer personally all letters, enclosing stamps, pertaining to matters of etiquette, addressed to her in care of this paper.)

T. V. It is always bad form to say "Yours in haste" in finishing a letter. You were in a hurry, you need not have said so. You should have let your friend think that you had leisure in which to write to her and that your mind was not busy with other things, when you were supposedly thinking of her, even though your letter was brief.

Edna: It was unpardonable of you not to remove your hat at the picture. The fact that no one was occupying the seats directly behind you made no difference. People coming in after you might have wished to have taken those seats, but your hatless head kept them empty. It is strange that an usher did not speak to you. If the theatre had become crowded, or if other people had not been more considerate than you

were, you should have been reminded of your lapses.

The Daily Novelette

AT THE NEWSTAND.

Little Rollo and his tutor, Mr. Froons, had been watching an eager crowd thronging about a newsstand purchasing copies of Dippy Stories, Torrid Tales, and other brightly colored periodicals.

"Can it be possible that they really intend reading that unwholesome matter, dear Mr. Froons?" asked Rollo. "Can it be possible that there can exist people who waste golden hours reading a magazine called Yello Yarns for instance, when they could be elevating their minds with Milton's 'All for the Love of Eliza,' or Dante's 'Pop Eye Paul and Geraldine' or 'Hail Gaius Long Haul'?"

"I hope so, Rollo," replied Mr. Froons. And, calling Rollo's attention to the peculiar shape of the early moon, he rapidly took from his side pocket a book entitled "Dick Devilly's Dare" and placed it in his inside pocket.

ALL TYPES OF BOATS EMPLOYED BY BRITISH IN BAGDAD CAMPAIGN

[BY ASSOCIATED PRESS]

Bagdad, March 6.—In their successful advance on Bagdad the British used some of the queerest craft in the world to navigate the Tigris.

These included the heavy teak-timbered craft which the Arab describes as chias and of which the ship carpenters attached to the force built 130. These craft carry about forty tons. They have short, stubby masts and just a bit of sail. Larger craft of similar design are called sadars. A total of 310 boats of these types were used for freight in the advance on Bagdad. These queer craft kept in touch with the advanced bases throughout the operations northward from the Persian gulf.

Other craft used included the "hallam" or canoe, ranging from 10 tons down to the tiny craft of three-quarters of a ton which causes Basrah to be described as "The Venice of the East," the "mashooof," a hollow wedge-shaped craft for navigating the reed mazes of the great marshes, and the guffah, a round basket, four feet deep and from four to nine feet in diameter, made of palm-frond ribs held together by juniper watties.

Mr. Wisconsin Man Why Shouldn't Your Wife Vote?

She went to school with you.

She studied history and government with you.

She gives your children their first knowledge of right and wrong.

She gives your children their first lessons in living together.

She is responsible for the cleanliness of their food, clothing and surroundings.

She would be responsible for earning the money to support your household if you should be disabled.

She is working with people all the time for the improvement of your home.

She knows about the conditions of the schools your children go to.

She knows about the efficiency of the garbage collection, the quality of the gas and electricity service, the enforcement of quarantine laws, the removal of waste from the streets in front of your home.

She knows a hundred and one things that connect your home with the administration of the city, and she knows them, not as a theory, but as things she sees every day.

Politics is only the organized effort of people working in groups to improve the conditions under which they live. The Vote is Your method of expressing your opinion on the best method of improving things.

ISSUE CALL FOR 30 RECRUITS FOR MILITIA COMPANY

Acting Captain Caldwell Likely to Receive Commission as Permanent Commander of Company.

Enlist now in the Second Separate Company. War has been declared. The company needs every man it can get. There are now seventy-five enlistment men, 105 is its full strength, and this number must be maintained. See Acting Captain E. N. Caldwell at the armory over Kemmerer's garage, at once. Mobilization of the state forces at Camp Douglas will probably be called within a few days, unless before they start. Tonight the company will be out for their regular semi-weekly drill. Every citizen is urged to come to the armory for the drill. See that the company has done already, and talk with the officers on duty. Captain Caldwell stated this morning that the detachment of men who have been selected for recruiting and guard duty is the finest group he has ever worked with. In less than a week of drilling, they have changed from raw recruits into alert, quick-moving men, they have learned the meaning of the term, soldier.

"There are few bunches of men," declared Captain Caldwell, "who would have gone through the rigorous training of the past week without complaining, yet I have heard not a murmur. The men are more eager now than they were when they started. We have been received from Madison that the temporary assignment of Lieutenant Caldwell as captain of the local company will be made permanent within the next few days, and his commission as captain will follow immediately. This news is most gratifying to the citizens who have known him since the development of the company under his command during the last two weeks. The recruiting campaign he instituted last week is really gaining more headway, and with the acting declaration of war, it is expected Janesville will respond with a loyalty and quickness that will soon fill up the ranks."

Tomorrow morning a special recruiting contingent of four men under Lieutenant Rau will leave by motor for Milton, Edgerton and Evansville, to bring in a large number of recruits who have been reported by members of the company from these sections. It is hoped that the expedition will materially swell the enlistment in the company. Despite the fact that through the week the details of sixteen men has been sleeping without cots, there has been no dissatisfaction. A sickening in the spirit. Notice was received this morning that the cots had been shipped yesterday, and by tonight the men will be resting on a regulation army cot, sent from Camp Douglas. Acting Captain Caldwell has made engagements with several clubs and organizations to address their meetings in an attempt to secure recruits. It has already spoken before the Lakota club with the result that a number of enlistments are expected from that organization. Efforts to recruit throughout the city have been doubled today, the men talking to many, and Captain Caldwell receiving many applications for information at his office.

JUDGE SPLITS JUDGMENTS IN INTRICATE LEGAL ACTION

Municipal Judge Maxfield gave his decision this morning in a legal action, Otto E. Scherer vs. Thomas Fraunfelder, the plaintiff in the sum of \$475.25 and the defendant a counter claim which entailed \$34.40 for materials, \$147.67 for board of the plaintiff and his men, \$133.25 for labor and disallowed claims for \$200 on tearing down a tobacco shed, \$200 on a barn, \$15 for loss of hay and \$100 for tearing down a fence. Scherer sued to recover the principal and interest on a \$730 note, which totaled \$770.56.

MUST PAY GROCERY BILL: GARNISHEE ACTION STARTED

Judgment in the sum of \$302.61 cents and court costs was entered in favor of Rogers Bros. against Vern Fraunfelder by Judge Maxfield in municipal court this morning. This was the main action, and this afternoon at three o'clock a garnishee action for a similar sum was to be taken up. The \$302.61 is for a grocery bill of \$270.19 which Fraunfelder has failed to pay, although he received credit in 1913-14

INSTITUTE TO GIVE EASTER CONCERT AT SCHOOL FOR BLIND

Announce Program for Annual Easter Recital.—To Give Sacred Cantata, "The Holy City."

The Wisconsin School for the Blind will give their Easter Concert in the gymnasium of the school on Sunday, April 8th, at four o'clock p. m. This year they are giving the sacred cantata "The Holy City," by Gail. Much time and work have been put into this production and it will probably be one of the best numbers which has ever been given by the school. The following is the program:

Part I.
"The Shepherd's Sunday Song"..... Kreutzer
Orchestra.
Sacred Cantata—"The Holy City"
Chorus.
Soprano Solo, "No Shadows Yonder"
Chorus.
Air (Soprano), "My Soul Is Ashamed for God."
Alfred R. Gail.
Trio, "At Eventide I Shall Be Light"
Lillian Lohry, Arnet Hart, Ellen Bentz.
Chorus, "They That Sow in Tears"
Air (Alto), "The Eye Hath Not Seen"
Chorus, "For Thine O Dear Count"
Chorus, "Thine is the Kingdom"
Cello Solo, "O Thou Sublime"
Evening Star (Wagner)
Clemens (Zerwinski).
Part II.
Air (Bass), "A New Heaven and a New Earth"
Chorus (Hil).
Choral Singers, "Holy, Holy, Holy"
Air (Soprano), "To the Lord, Our God"
Agnes (Hil).
Air (Alto), "Come, Ye Blessed of My Father"
Ellen Bentz.
Chorus, "The Plague For Is Striver"
Air (Soprano), "These are They Which Chorus"
Lillian Lohry.
Duet, "They Shall Hunger No More"
Alpha Rector, Geneva Black.
Trio (Chorus), "Hail the Cherub Host"
Solo (Bass), "And I Heard the Voice of Harp"
William Hansen.
Chorus, "Glorious and Marvelous Are Thy Works, Lord God"
March from "The Marriage of Figaro"
Wagner.

HOW TO CLEAN FINE MAHOGANY

Superintendent of The Tobey Furniture Company, Chicago and New York, Gives Instructions

Owners of fine mahogany furniture and woodwork will be interested in the following statement by Mr. Wm. E. Schubert, one of the country's best known experts on the subject of fine woods and finishes:

"With simple care, the beautiful surfaces of mahogany furniture and woodwork may be maintained almost indefinitely. Two things are necessary—frequent and thorough cleaning, and the application of correct conditioning oils.

"Tobey Polish, made from our old secret shop formula, accomplishes all this in one easy, simple operation. It takes off the dirt and grease, quickly and without hard rubbing; removes surface stains and foggy appearance; obscures small scratches, and nourishes and maintains the finish—preserves its body and rich color. It wipes off dry and does not collect the dust.

"We strongly advise against washing fine furniture and woodwork. Some finishes will stand washing, but so many will not that it is best not to wash any of them."
Tobey Polish is now offered for sale in the general market, and may be obtained from your nearby dealer. Prices, 25c, 50c and \$1.

"Mobilize the Movies." The association of motion picture advertisers, feeling that motion pictures may be of possible assistance to the country's military resources, has instituted a campaign—object preparedness. The plan of campaign includes, it is said, the organization of a responsible bureau in New York which shall immediately prepare two feature pictures to be shown in the 20,000 motion picture theaters in the United States, and the immediate use of smaller patriotic reels now available from the motion picture companies. It is planned to prepare slides to induce recruiting. Among the men said to endorse the plan are Jesse L. Lasky, Adolph Zukor and Walter Irving. Trust the movies to keep moving.

AND BUSINESS?

Sandwich, popcorn, peanut, waffle and hot dog men formed the vanguard of the hippopotami that left their breakfast and its business in St. Augustine and flocked to the scene of the battle being filed for Theda Bara's new picture.

Then after the sun was in and the cameras folded, the throng took its tired and dusty way happily back to St. Augustine.

Anna Q. Nilsson, who has been a leading woman in moving pictures longer than almost any other actress, will appear again shortly in a new picture, "The Inevitable." Miss Nilsson has the part of a girl who, intending to avenge her father's death by ruling

his enemy's son, discovers when she has nearly accomplished her purpose that she loves the youth.

Valeska Suratt, just back from the south, Virginia Pearson, just back from Tampa, Stuart Holmes, et al., helped William Nigh celebrate the finishing of "The Blue Streak" over a brown and festive breakfast. The Hotel Maxwell in New York was the place.

Without describing exactly the duties performed a certain detective agency filed in the New York sunpapers last week a suit against Clara Kimball Young for \$11,450. It is said that Mrs. Young has paid \$2,000 on account, but refuses to meet further demands.

It is said that "Mothers of France," the new Sarah Bernhardt picture, which has just been purchased by the World Film-Buy Made Pictures corporation, has broken every attendance record in the history of the Rialto theater in New York.

A publicity man writes of a forthcoming comedy: "From divorce court to a Turkish bath establishment, and finally into the evening month of a neighboring while is the somewhat unusual tour taken by principals in 'A Bath House Tangle'."

No movie star ever died of overwork.

What would the movie plays be without letters or telegrams?

Whitewater News

RAINCOAT COMPANY TO START IN WHITEWATER.

Whitewater Wisconsin April 6 1917 The Whitewater Raincoat Company which has opened a factory in the old Bower Hall, is about ready to start. Machinery for cutting, sewing, working button holes and other operations has been put in place, help has been secured, but freight shipments, necessary to start work, have been delayed.

To Improve Road

Last Sunday morning there were confirmation services at St. John's Lutheran church and a large number were in attendance. There was a class of fifteen boys and girls confirmed at this time. The members of the class were: Fred Braun, Ella Gnatzig, Harold Lentz, Elie Koestel, Walter Meyer, Albert Panke, Esther Peters, Karl Piepenburg, Marguerite Roe, Osea Schmidt, Albert Stielke, Minnie Strunk, Lena Traichel, Gertrude Wegner and Adella Zimmer.

E. Whitney, Ward Bloodgood, Rollie Jones, and Harold Jones were in Milwaukee yesterday.

Mr. and Mrs. A. C. Bloodgood of Aurora, Ill., came Wednesday evening for a visit with his mother, Mrs. S. W. Bloodgood.

CRIPPLED ITALIANS MAKE TRINKETS FOR THEIR LIVING
Rome, March 6.—Crippled soldiers in Italy have been taught a number of useful trades, among them the making of artificial flowers, baskets, the cutting of cameos, leatherwork, book-binding and many other things. These objects have found such a ready sale in the larger Italian towns that several American women are forming a committee to forward them to the United States.

MYERS THEATER.
The First Show after Easter.
The Fiddlers Contest, billed at the Myers theater for April 9, has been playing to full houses all year. At Harvard and Woodstock it drew larger attendance than any other entertainment during the past year. They have with them several specialties never before seen with a contest of this kind; for details see tomorrow's paper.
They offer \$100 worth of prizes, which are in the show window at the Janesville Electric company, the grand prize being a 21 jewel watch. These prizes should bring out all the best old time players in Janesville, as well as the best talent for many miles around, as this contest has been advertised in all of the large cities within fifty miles of here.
The old style players are gradually getting too old to play and this may be the last contest of this kind that you may ever witness, so you can't

Heart and Home Problems

LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: I am thirty years old and in the eighth grade. I am not happy. I dress as good and pretty as possible, but I can't seem to make friends.

(1) Please tell me how to make friends. I am a girl and boy friends.

(2) I am always saying or doing things I can't help and I don't mean to say them. How can I stop this?

(3) All the girls and boys around here play exciting games. I want to be in on it, but I don't know how to do it. I want to be a star.

(4) Often at parties boys want to kiss me and I say I don't want them to. But some of them when they are taking me home kiss me anyway before I can get away. What shall I do in such a case?

(5) To make friends you must consider your relationship with people from their point of view. You must do and say things which they will like rather than the things course you should not seek friends who would make it necessary for you to compromise.

(6) There is a way of being "of and yet above" at school or wherever you are. If you greet your schoolmates and call them by name or ask how they are when you meet them in the morning or pass them on the street, they will surely have a warmer, more friendly feeling toward you and you will be happy for yourself. Always take an interest in the fortunes and misfortunes of your schoolmates and that will make them like you better.

(7) Self-consciousness and action without thought make you do things you do not want to. It will probably help you to keep a little book in which you write each morning five or ten things you hope to accomplish during the day. At night check off the items and see if you have done what you expected to do.

(8) It is very poor taste to play kissing games. They are never played for any reason except fun that is known of.

(9) Have your mother or father call for you.

Dear Mrs. Thompson: I am nearly seventeen and have been married a year. I dearly love my husband and I am sure he loves me. But I have a feeling that he does not like me. I have tried to tell him that I love him, but he says I am sticking up for them. I know my parents should not try to turn me against him. He is a Christian, with no bad habits and makes good money. He has a very good to me. Please tell me what to do. Do you think it would be best to go by myself?

Household Hints

HOT CROSS BUNS

One and one-half cups milk, one-fourth cup butter, one-half teaspoon cinnamon, one quart flour, one-third teaspoon salt, two-thirds cup currants and raisins, mixed, one-third cup sugar, one-half compressed yeast cake, one egg, one teaspoon sugar for yeast.

Scald the milk with butter and sugar and allow mixture to cool until lukewarm. Work the yeast into the milk, also the egg lightly beaten. Put in the currants and raisins, then sift and add flour, salt and cinnamon. Knead to a dough and allow to rise in a warm place free from drafts until very light.

Divide into portions a little larger than biscuits, work till smooth, roll into rounds and place on greased baking pan a little distance apart. Let them rise once more until light and bake in moderate oven. Just before baking mark with a sharp knife a cross on the top of each bun. When nearly done brush over with milk or white of egg, sprinkle with sugar and return to oven for a moment.

BEAN DISHES THAT WILL DO

WORK OF BEEFSTEAK

Beans and other plants of the legume family are of especial importance because they furnish the body with all the material needed for the development and repair of tissue. They help to keep the body in good running order and are considerably cheaper than many kinds of animal food. In fact, properly cooked, they will nourish you as well as beefsteak.

In addition to the energy-giving substances which they contain in large proportions, legumes are a valuable source of potassium, phosphorus, iron and calcium. Like milk, fruits and vegetables in general, legumes, with the exception of peanuts and lentils, belong to the group of foods needed to the diet for the purpose of preventing an excess of acid in the system; a condition that might arise from a too exclusive use of meats, eggs and cereals.

George W. Perkins, food supply committee in New York, especially recommends the use of Brazilian beans, white beans costing more. Some of this committee's recipes are included below:

Baked Beans (Fireless Cooker).—One pound Brazilian brown beans, one-fourth pound salt pork, one teaspoon baking soda, two tablespoons molasses, one teaspoon mustard.

Wash the beans and soak them in cold water overnight. In the morning pour off the water and put beans into cooking pot. Cover with cold water, add the soda and cook gently on the stove until beans are slightly softened. Pour off water, add molasses and mustard with a pint of water and pour this over the beans, adding more water if the beans are not covered. Place the pot in good running order and leave for ten or twelve hours.

Baked beans require six to eight hours if baked in a gas or coal oven. By using a fireless cooker the coal or gas is only used for thirty minutes, making a wonderful saving.

Bean Sandwiches.—One cupful cooked baked bean pulp, one tablespoonful melted butter or cream, one teaspoonful finely minced onion, salad dressing enough to moisten.

Baked Bean Croquettes.—One cupful baked bean pulp, one teaspoonful onion juice, one-half cupful white sauce, salt and pepper.

Combine the ingredients and allow them to stand for two or three hours. Shape this mixture into croquettes. Roll them in bread crumbs, beaten egg and crumbs again. Fry them in deep fat.

By using the baked bean pulp, a really delicious bean sandwich can be made by spreading the mixture on thin slices of buttered bread.

Scalloped Lima Beans.—Put a layer of boiled lima beans into a buttered baking dish. Sprinkle them with salt, pepper and bread crumbs. Over several such layers pour sufficient white sauce to cover. Sprinkle buttered crumbs over the top. Bake for twenty minutes in a moderate oven.

Bean Soup With Milk.—Follow directions given in above recipe, but use one and one-half cups of milk, instead of stewed tomatoes.

Twenty-five Cents a Day

spent for the right kind of food will keep a man in good health, fit for any task. Two Shredded Wheat Biscuits, served with hot milk, make a complete, perfect meal at a cost of four or five cents—a meal that supplies in digestible form every element needed to build new tissue and furnish heat and energy for the human body. At twenty-five cents a day for three meals there is a margin of ten cents for fruit or green vegetables. Such a diet means a clean stomach, healthy liver, active bowels. For breakfast with milk or cream. Made at Niagara Falls, N. Y.

A Married Life Crisis.

Should married people criticize each other?

The Most Recently Wed Lady was in the dumps the other day. "What do you think?" said she. "My husband told me I didn't look nice at all. Wasn't that horrid?"

"What do you mean?" said we, reserving judgment. The Most Recently Wed Lady has an extra nice husband.

"Well, I was thinking and biting my lips and he said, 'Don't do that. You don't look nice.' He never said anything like that to me before."

"Do you know anyone who always looks nice?" we asked.

"No, but..."

"You didn't like having him say it?"

"Yes, that's it. It made me feel as if he didn't love me."

She Admitted She Would Rather Stop sive use of meats, eggs and cereals. George W. Perkins, food supply committee in New York, especially recommends the use of Brazilian beans, white beans costing more. Some of this committee's recipes are included below:

EVERYDAY ETIQUETTE

When sitting in a box at the theatre, the gentleman always sits at the back of the box, leaving the front seats for the ladies.

(Miss Hoyt will answer personally all letters, enclosing a two-cent stamp, pertaining to matters of etiquette, addressed to her in care of this paper.)

Miss D: No. I think you would better not send your new photograph to the young man who was so attentive to you at the Country Club dance.

All girls have photographs of themselves, and all young men know it. If he wishes to possess a likeness of you, he will ask for it. Even then, you'd better ask your mother's permission to send it.

Glady: When you picked up the lady's handkerchief on the street you should have hurried ahead and handed it to her, even if you didn't know her. You could have explained your addressing a stranger by saying: "It belongs to you, madam, but you dropped your handkerchief."

GINGLES' JINGLES

LEARN TO WAIT.

Do not be too overanxious for the things to come about, that you think should happen here and now to you, do not face this world of sunshine, wearing on your face a pout, it is a cinch a stunt like that will never do. Learn to labor in the vineyard—do it gladly as you go, and expect a little bitter with the sweet, you must bump into the contrast, otherwise you'll never know when the blessings handed you are quite complete. Things will come when you are ready to receive them as you should, when you prove that you're deserving of the gift, when the test has been applied and you have bravely, strongly stood, watching for a chance to give some guy a lift. Never feel that you are slighted when the plums are passed around and it seems you're not among the favored few, just be faithful—keep a-striving, if you fall you must rebound, you are sure to climb the ladder if you do. So it's wise to not be anxious but with patience learn to wait, working hard to bring about your heart's desire, and with courage firm and steadfast you must calmly smile at fate—know that those who win must all go through the same old fire.

When you are ready to receive them as you should, when you prove that you're deserving of the gift, when the test has been applied and you have bravely, strongly stood, watching for a chance to give some guy a lift. Never feel that you are slighted when the plums are passed around and it seems you're not among the favored few, just be faithful—keep a-striving, if you fall you must rebound, you are sure to climb the ladder if you do. So it's wise to not be anxious but with patience learn to wait, working hard to bring about your heart's desire, and with courage firm and steadfast you must calmly smile at fate—know that those who win must all go through the same old fire.

Mike Knapp, who was so ill during the last game that members of either team thought he would faint between halves is better now, and will be ready to play his regular game. Mike was away off in the last fray due to his poor physical condition, consequently in a long period without sleep.

Knapp's illness evidently tended to make Jack Mitchell do a whole lot of eccentric playing because Jack never played such a game in a Cardinal suit.

In the first four games Nicholson played he made five hits for a batting average of .333. Three of these drives were triples and the others were two-baggers. In the four games he stole and scored four bases on balls and stole a base. Nicholson's unusual speed would make him a great partner for Cobb if he is qualified in other respects as a fielder. When Crawford was used in right field last season, Cobb had to patrol his own territory.

JUST WHAT TO PLANT AT THE PROPER TIME

A grouping of common vegetables according to their ability to withstand frost has been worked out by the garden experts. Plants, not injured by light frosts, may be planted as soon as heavy frosts are over usually as soon as soil can be put in condition.

They include cabbage, Irish potatoes, early peas, onion sets, salad crops, such as kale, spinach and lettuce, in the same time start in seed boxes in the house or hotbed, tomatoes, egg plants, peppers and cauliflower.

The second group includes vegetables which should be planted only after all danger of hard frosts is over. Lettuce, radishes, parsnips, carrots, beets, wrinkled peas and early sweet corn.

The third group should be planted only after all danger of any frost at all is over and includes string beans and late variety of vegetables. A few early tomato plants should also be set out but care should be taken to protect them from any chilly weather.

The fourth group should be planted until the ground is thoroughly warmed up. Included in this would be cucumbers, melons, squashes, pumpkins, lima beans, tomatoes, egg plant, and peppers.

BADGER DAIRYMEN WEED OUT SCRUBS

Madison, April 6.—Improvement of dairy herds by weeding out unprofitable cows, providing economically housed calves, and increasing each cow in the herd as an individual, is being accomplished according to reports from inspectors of the Wisconsin Dairymen's association.

Dairymen are content with receiving the highest summer prices ever paid for milk from their herds, are increasing their profits by cutting the cost of production through cow testing associations. After the tests of unprofitable milkers are desisted of at present high beef prices and other animals substituted which will earn more money for the dairy.

Field men of the state dairymen's association have found so many opportunities for organizing new cow testing associations that they are not able to care for them all. Twelve such organizations recently have been formed and more are in the making. The present twelve are at New Berlin, Waubesa, Avoca, Black Earth, Janesville, Stoughton, Monticello, Bloomfield, and Ladysmith.

WILL AID WOMEN STRANDED BY WAR

London, March 6.—For Women Without a Country is the title of a committee organized by the American Women's club under the direction of Lady Lathbury.

The club, in connection with its war work, has found that there are a large number of women stranded in London who cannot claim the rights and protection of any state; they are citizens of no country.

An instance given by the club secretary is that of an English woman who married a Belgian and went with him to the United States, where he lived long enough to lose his nationality. Neither took out naturalization papers and they returned to Europe so that the husband could enter the Belgian army, in which he is now fighting.

"We have record of more than a hundred such cases," said the secretary.

The club has a committee to help stranded Americans, to educate American children, to maintain workshops where hospitals are supplied to the Allies, and to arrange a knitting factory for the aged.

SAVE, DON'T SWAT THE ROOSTER HE SAYS

Chicago, April 6.—Arguing that the country's supply of poultry is threatened by an undue slaughter of roosters, H. B. Patton of Bloomington, Ill., president of the National Poultry, Butter and Egg association, has issued a warning in the current number of the association's bulletin in which he pleads for the monarch of the barnyard.

"I am not arguing which was first, the egg or the chicken," says Mr. Patton, "but the question does not go before me, which is most to be considered, the chicken or the egg."

After referring to the practice of killing a large percentage of roosters in the spring in the interests of egg producers, some retailers having gone so far as to consider the establishment of a "swat the rooster day," the association's head said:

"Many years ago central Illinois furnished a good supply of poultry until the harvest is past and but little poultry is left for the glaucous waiting rooster. I have no suggestion that the rooster has had no small part in bringing about this change in the late season's supply. In these days of under production and over consumption a full poultry crop is desirable and needed to help feed the world."

APPLETON GROCERYMAN WILLS \$1,000 TO NAC

AN EXPRESSION OF PATRIOTISM.
A pleasing little incident happened yesterday which exemplified the patriotism that most of the foreign born feel toward the country of their adoption. It is the custom of the members of the W. G. C. to attend in a body the funeral of any of their departed members who have passed on, and yesterday a delegation of about thirty of their members, preceded by their Milwaukee escort on one of these solemn occasions. In passing a group of men working on the street, one of them, an old German, in his appearance, removed his hat and saluted the flag, the colors were carried by. Such little expressions of patriotism are very fitting, especially in the anxious days of the present time.

BADGER MILITARY TRAINING

WOUNDED SOLDIERS WEARING PAPER LEGS IN PARIS NOW
(SPECIAL TO THE GAZETTE.)
Paris, March 6.—Artificial legs, made from paper, each are costing less than 75 cents and are being supplied to wounded soldiers in Paris hospitals. The paper legs, which are the invention of a Danish surgeon, are merely for temporary use, but with care will last from six months to a year. They are made on the spot, can be used a fortnight after the amputation, and obviate the necessity of crutches while the patient is convalescing.
A hospital orderly can cut out, fit and complete a paper leg for a patient in about half an hour. The work takes a day to dry and set, and may be used the next day by the invalid.
The Athens class met on Wednesday at the library, with a program along the line of educational work in Wisconsin. Mrs. W. H. Blair gave a paper on normal and training schools of the state. Mrs. A. C. Campbell one on Elia Wheeler and another on Burnham a paper on Hamlin Garland.

RAILWAY HAS STORE FOR ITS WORKINGMEN

Danville, Ill., April 6.—Effective attack on the high cost of living is being made by the families of nearly one thousand employees of the Chicago and Eastern Illinois railroad at Oak Lawn, a nearby suburb, with the establishment of a co-operative store owned and operated for the benefit of the road employees.

Stock in the institution has been subscribed and paid for and arrangements to open the store at once have been made. The expectation of the incorporators is that the store will effect a reduction of one-third in the cost of the necessities of life through wholesale buying and re-sale to stockholders at prices which will cover only the cost of handling the goods, clerk's salary and not to exceed 2 per cent profit, the surplus to be used in enlarging the selling capacity of the store on express stipulation decreases that there shall be individual profit in the enterprise for any one.

The venture is regarded as a practical test of wholesale selling as a means of combating high prices.

Nearly every householder in the community is interested in the co-operative movement. The incorporators include a machinist, an engineer and a stenographer, wife of one of the other incorporators, and they have agreed to operate the store without charge, except for the necessary clerk hire.

Money is on hand to purchase an initial stock of food stuffs and wearing apparel to meet the requirements of the wage earners who have found their purchasing power unequal to the strain of increased charges.

The paper legs, which are the invention of a Danish surgeon, are merely for temporary use, but with care will last from six months to a year. They are made on the spot, can be used a fortnight after the amputation, and obviate the necessity of crutches while the patient is convalescing.
A hospital orderly can cut out, fit and complete a paper leg for a patient in about half an hour. The work takes a day to dry and set, and may be used the next day by the invalid.
The Athens class met on Wednesday at the library, with a program along the line of educational work in Wisconsin. Mrs. W. H. Blair gave a paper on normal and training schools of the state. Mrs. A. C. Campbell one on Elia Wheeler and another on Burnham a paper on Hamlin Garland.

WOUNDED SOLDIERS WEARING PAPER LEGS IN PARIS NOW
(SPECIAL TO THE GAZETTE.)
Paris, March 6.—Artificial legs, made from paper, each are costing less than 75 cents and are being supplied to wounded soldiers in Paris hospitals. The paper legs, which are the invention of a Danish surgeon, are merely for temporary use, but with care will last from six months to a year. They are made on the spot, can be used a fortnight after the amputation, and obviate the necessity of crutches while the patient is convalescing.

VIOLATES PAROLE AND GETS A YEAR; SHERIFF IS BUSY

Fred Burnett Must Serve Year Additional Under Commitment Law.
—"Bob" Deals Out Bread and Water.

It don't pay to violate commitment law sentences in Rock county. The penalty one has to suffer after being found guilty of such charges is generally many times worse than the original "bit" handed out by Judge Maxwell.

Fred Burnett was given a year this morning because he violated his parole. A year ago yesterday was sentenced for drunkenness, and eleven days later he deserted from the place he was paroled to. He succeeded in eluding the officers numerous times, but like always in the matter of justice and crime he was finally caught. He, Burnett, was found guilty this morning and given the additional year.

Since Sheriff "Bob" Whipple has been in office, his regime commenced the first of January, ten commitment law violators have been dealt with. The penalty the sheriff has been handing out is ten days solitary confinement on bread and water, and when the prisoners finish their term there is yet to be an instance when one has expressed a desire of taking the "cure" a second time.

The sheriff has expressed a determination to make the prisoners committed to his care walk the straight and narrow so long as the period they must serve lasts. A number of prisoners have been found intoxicated, while others have broken their parole. These are the ones who have been rounded up and given the aqua pura and the state of life times each day for ten successive days.

The sheriff has inaugurated a system whereby men incurring commitment law prisoners report back their behavior, etc. Through this means an excellent watch is kept on those inclined to regard the law as a joke. Since the new sheriff assumed office the statute has lost lots of its comedy and humor in Rock county.

Judge Maxwell advocates an amendment to the statute whereby it be compulsory for the sheriff to report back from time to time where the prisoner was placed, how he behaved, etc.

Use Coconut Oil For Washing Hair
If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulitised coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulitised coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.
